

Eliminate plastic and single-use containers
in the food and beverage industry

AWESOME CONTAINER COMPANY

Single-use packaging: bad for the planet, bad for business

Sustainability Delivered

- Eliminate single use plastics
- Save 50% on supplies
- No extra real estate for storage
- No inventory management
- No weekly orders

TRACTION

MOU contract signed with over 1200+ Companies

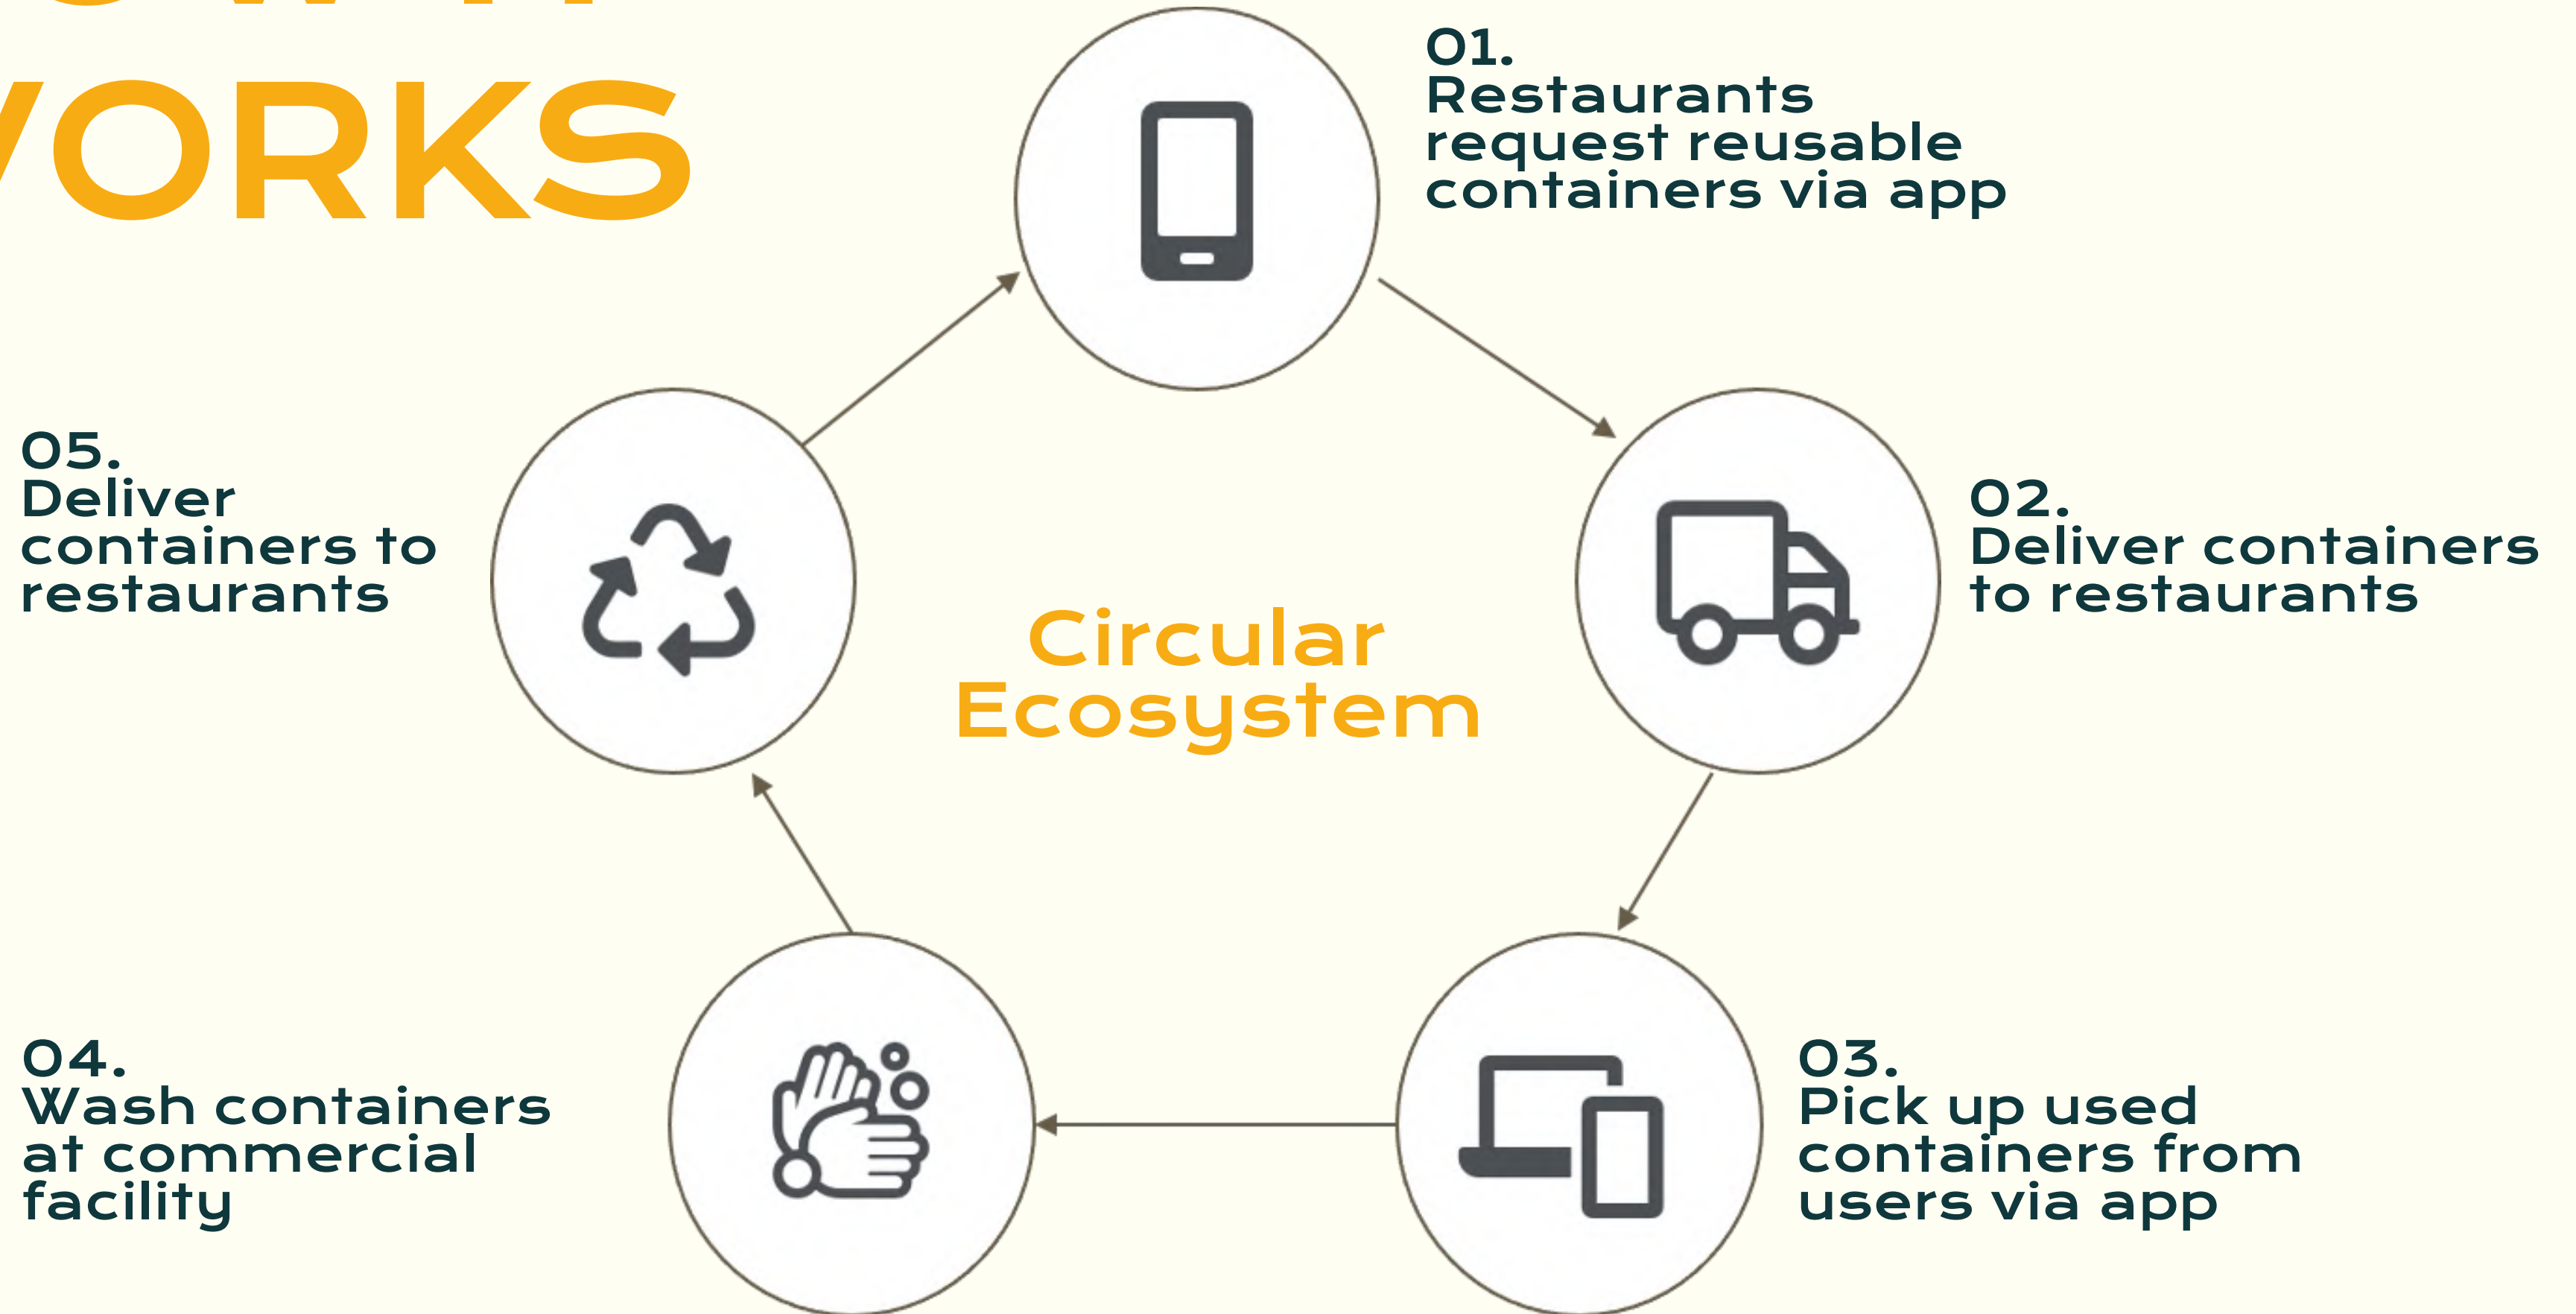

200k +
Restaurant
Locations

Signed

\$100+
Million
Revenue in 3
years

HOW IT WORKS

\$10M REQUIRED

What we need:

Fulfill the MOU's

Build management,
software, and logistics
team

Washing
Facility/Warehouse

App development on
Blockchain

POS payment system
development

The upside:

(DAO) Community
ownership

Thousands of
companies signed on

Revenue generating
on day one

Government grants

BENEFITS

Businesses- restaurants, food and beverage companies

Save at least 50% on supply cost

Save 50-60 hours per week of manager's labor cost- no inventory management, no reordering, no restocking

Save Real Estate cost for storage

Users- takeout customers

Removes all chemicals going into food- plastics, BPA, PFAS and other "forever chemicals" used to hold compostable packaging together

Gamification- Crypto rewards for returned containers

Sustainability sells- users feel good about helping the planet

FOOD DELIVERY IS NOT GOING OUT OF STYLE

Food Delivery Expected to Reach
\$200 Billion by 2025*

Singapore: \$10 Billion

Vietnam: \$5 Billion

Thailand: 5 Billion

Malaysia: \$5 Billion

Taiwan: \$10 Billion

ACC Share of Market: 60%

WE ARE BUILDING A BRAND

- ✓ Companies are looking to adopt ways to becoming a more sustainable company
- ✓ Restaurants are moving to compostable packaging vs plastics.
- ✓ Governments offering grants and funding for sustainable driven startups and companies.
- ✓ Governments putting in laws to limit use of plastics and single use packaging.
- ✓ ACC competitor, DeliverZero in NYC, has raised \$5 million usd in funding and has over 150 restaurants on their platform. Further validation this is needed.

SUBSCRIPTION-BASED B2B

The one sustainability ecosystem to rule them all

Tier 1

\$500-\$1000/month
(10-50 orders/day)

Tier 2

\$1000-\$3000/month
(50-100 orders/day)

Tier 3

\$3000-\$6000/month
(100-200 orders/day)

Tier 4

\$6000+/month
(200+ orders/day)

Ads and marketing on containers and app gamification provide additional revenue streams

REVENUE STREAMS

The one sustainability ecosystem to rule them all

Monthly Subscription

Monthly subscription with restaurants and retail markets

Advertising

- 1) Advertising on our containers, packaging.
- 2) Mobile app - advertising in app.

App Gamification

Companies offer their products as rewards for the amount of packaging customers return

Point of Sale (POS)

Accept Crypto, Visa, MC payments.
Revenue from every single transaction

WHERE WE ARE GOING

Q4 '22

- App development on Blockchain
- Logistics: Grab, Ninja Van (3rd party)
- Washing facility: Clean Solutions (3rd party)
- Product launch in Singapore with 30 brands

Q1/2 '23

- Onboard more restaurants from MOU contracts
- Build team: management, tech, logistics, sales, marketing
- Build central washing facility
- Build operations for market rollout in Vietnam, Malaysia, Taiwan, Thailand

Q4 '23

- POS payment system integration
- Partnership with Coke, Pepsi, Nestle. Replace plastic bottles
- UK & EU expansion
- Move to 100% community owned through multiple DAOs

OUR DREAMS ARE BIG

- Partner with beverage brands like Coca-Cola, Pepsi, Nestle to eliminate their plastic bottles in retail markets. No more plastic bottles!
- Develop Point of Sale (POS) payment system running on the blockchain. Can accept Crypto/Visa/Master Card. Management & inventory, delivery tracking and ordering
- Marketing - Biodegradable wrap to protect the containers and brands can print their marketing materials on. Another revenue stream for ACC
- App Gamification - Users get Crypto and product rewards for containers returned. Brands offer their products for free as their marketing budget.

INVEST IN SUSTAINABILITY

MOU contract with over 1200 food and beverage companies

Revenue generating on day one

Access to 60% of the market once we onboard the 1200 companies

CEO and COO has over 45 years of experience in the food and beverage industry, built companies from the ground up. Previous founders

CTO has over 5 years as CTO, founder of own tech company

THE BLOCKCHAIN APPS

- Mobile App/Point of Sale payment system - accept Crypto/credit card payments. All data on Constellation blockchain, Management and inventory software. Fully integrated with all products.
- Input visibility - QR code tracking through circular ecosystem
- Supply chain visibility - map manufacturing-ACC-B2B-B2C-C2B
- First party footprinting- ACC to restaurants
- Second-party footprinting - Restaurants to customers
- Third-party footprinting - Customers to ACC
- Reporting Focused - Monetize data from manufacture down to product end of life. How many cycles each product completed, Amount of waste reduced per month/year

MATERIALS & END OF LIFE IMPACT

PRODUCT:

- Food grade stainless steel & aluminum containers
- Food-grade Silicone Lids
- Biodegradable Wrap: Protects containers & brands can print marketing/branding materials on it
- Containers can be reused 5+ years
- Product end of life: Can be recycled into new containers and put back into ecosystem
- Zero Waste: Containers never go into landfills or water systems
